

846i Recumbent Cycle

Recumbent bike for heavy commercial use.

Features

Resistance	<ul style="list-style-type: none"> The magnetic, no-contact 3-phase generator system provides a wide range of resistance. 25 different resistance settings let users maximize workouts. Resistance levels range from 18 watts (level 1 at 20 RPM) to 500 watts (level 25 at 100 RPM) and 750 watts (level 25 at 150 RPM).
Drive system	<ul style="list-style-type: none"> 3-piece crank tightens positively, reducing the need for periodic adjustments. The 9/16" crank arm accepts any standard road or mountain bike pedal. The double step up drive system yields smooth, comfortable, quiet operation. 3-phase generator/eddy current resistance system requires no backup battery in order to power the bike. Belt drive for smoother, quieter operation and reduced maintenance.
Display & Entertainment	<ul style="list-style-type: none"> Offers seamless integration with Cardio Theater options. Bio-feedback center with SmartRate provides dedicated feedback on heart rate and calories to end users. SmartRate® shows actual heart rate in relation to the target zone for weight loss and cardio training. Numeric keypad makes data entry and Cardio Theater control easy. Tap Control provides satisfying tactile and audible click so end users feel confident and safe operating the product. Options menu offers wide choice of metrics and user defined languages and units of measure for readouts. QuickStart™ for user convenience lets user begin workout with the push of a single button.
Frame	<ul style="list-style-type: none"> Two-step powder-coating process applies rust-resistant undercoat and cosmetic topcoat to steel frame. Both sets of handlebars are covered with sweat-resistant molded vinyl that remains pliable and helps keep the underlying steel dry. Adjustable straps with easy adjust feature on pedals fit a wide range of shoe sizes. Low-profile crank arms position feet for unrestricted movement and reduce strain on the knees. Pedal axles and bearings are designed to offer exceptional service life. Comfortable ergonomically correct seat fits a wide range of body types. Based on user testing and ergonomic principles, the seat pads are angled for optimal comfort, maximum low back support, and minimal interference with the movement of the user's legs.
Diagnostics	<ul style="list-style-type: none"> Ability to set club parameters, e.g., limit exercise time and pause time. CSAFE ready and FitLinxx compatible.
Heart Rate	<ul style="list-style-type: none"> Has handheld heart rate in seat grips. Equipped for heart rate telemetry reading with Polar® technology.
Other Features	<ul style="list-style-type: none"> Accessory holder for water bottle, reading material and portable music. Transport wheels located in front for easy movement.
Warranty	<ul style="list-style-type: none"> Seven years frame, 5 years display face assembly, 1 year battery, 2 years parts and 1 year labor. Warranties outside the U.S. and Canada may vary.
12 programs accessed directly by 6 buttons	<ul style="list-style-type: none"> On the fly program changes without losing data <u>Manual</u> <ul style="list-style-type: none"> <u>3 Intervals</u>; includes 1:1, 1:2, 1:3 <u>3 Variety</u>; includes Random, Cross Country, Custom Resistance <ul style="list-style-type: none"> <u>1 Heart Rate Control</u>: Basic <u>1 Weight Loss</u> <ul style="list-style-type: none"> <u>3 Performance</u>; includes Fitness Test, Hill Climb, Watts Control
Electronic Readouts	<ul style="list-style-type: none"> % Complete, Average heart rate*, Average speed, Calories, Calories per hour, Calories per minute, Goal, Heart rate*, Language, Maximum heart rate*, METS, Profile, Resistance levels, RPM, Segment time, SmartRate®*, Speed, Target heart rate*, Time, Time elapsed, Time in heart rate zone*, Time remaining, Units, Watts, Workout summary

* Requires use of chest strap or touch grips

Recumbent Measurements

• Length	57 in (145 cm)	• Weight	160 lbs (73 kg)
• Width	24 in (61 cm)	• Shipping Weight	200 lbs (91 kg)
• Height	48 in (122 cm)	• Maximum pause time	30 seconds
• Maximum user weight	350 lbs. (159 kg)	• Maximum workout time	Unlimited
• Resistance levels	25	• Resistance range	18 – 750 watts
• Distance from seat-back cushion to crank	30 in (76 cm) minimum 42.5 in (108 cm) maximum	• Distance from front of seat to crank axle	18 in (46 cm) minimum 30.5 in (77.5 cm) maximum
• Regulatory approvals	FCC, ETL, CE		

Power

Self-powered. Cordless, so it can be placed anywhere on the floor. Optional power supply with power input jack is available.
