

Your *Online* Facility Management Resource!

FitnessFacility.com's advanced functionality and powerful features enable you to manage your fitness facility with ease. Gain insightful reporting, track inventory, manage assets, allocate resources, schedule maintenance & service calls, order supplies, and more all via a secure and private online site!

FitnessFacility.com provides a tailored tool and opportunity to maximize the benefits and enhance the daily operation of a single fitness facility or hundreds of properties across the country. It is remarkably scalable, yet precisely supplies the necessary support at both the property level and corporate headquartered interest alike.

The intuitive and easy-to-follow workings of this online program support the Fitness Administrator within your organization in maintaining the essentials required to effectively operate an ever changing fitness environment.

This program will serve to enhance the guest or member experience within the confines of your facilities by making it easy to keep equipment up and running, accessories clean and current, and insuring that your staff is properly trained and supported with the right information at all times. Add to this an increased visibility by authorized parties to view equipment service history, product age and condition information, and finally remaining warranty and projected useful life data; the FitnessFacility.com Program will soon become the best tool you have ever had in fitness!

Whether you're managing a single facility or a larger portfolio, FitnessFacility.com puts control and efficiency at your fingertips, saving valuable time and money along the way. FitnessFacility.com takes the pain out of facility management.

Contact us today to schedule a demonstration of a FitnessFacility.com site.

Private & secure online fitness amenity support!

"I feel that this program is extremely valuable. Time is what I never seem to have enough of and this program really speeds up the process — no calling, leaving messages, waiting for return calls, etc. It's easy, efficient and IT WORKS! It absolutely improved the efficiency of product purchases and especially service requests. We receive phone verification the same day and we see the service tech within 2 to 3 days max. I'm very pleased with the program as it stands. It meets all of my needs. I can't think of anything I would change or add."

Betty Murphy, General Manager
